

APPENDIX 3

ATC DATA FROM SITES ON KEY CENTRE CORDON

ATC DATA FROM SITES ON KEY CENTRE CORDON

This section presents profiles of traffic entering the key centre, derived from automatic traffic counts over two consecutive weeks in February-March 2009 on roads with at least 2000 vehicles per day.

The first sheet presents total traffic flows. The five day average flow for time period 0700-1000, combined with those from the other key centres in Greater Manchester (excluding Manchester), provides the 2008/09 data for the mandatory indicator LTP6b: Peak traffic flows to other Greater Manchester key centres.

The second and subsequent sheets present data for each site as follows:

Site	Description	Direction
00610570	A57 Regent Street	Westbound
00610581	Entrance to Morrisons	Eastbound
00610590	A57 Church Street ¹	Eastbound
00610601	John William Street	Eastbound

Note: ¹ The 7 day average traffic flow for Site 00610590 A57 Church Street has not been calculated as no data is available for both Saturday and Sunday at this site. The total traffic flows of all sites on both Saturday and Sunday and the 7 day average for the total traffic flows of all sites have also not been calculated.
